# The Point In Time

## Housing Inventory Chart

**The Point-in-Time (PIT)** count is a count of sheltered and unsheltered people experiencing homelessness on a single night in January. HUD requires that Continuums of Care conduct an annual count of people experiencing homelessness who are sheltered in emergency shelter, transitional housing, and Safe Havens on a single night.

Continuums of Care also must conduct a count of unsheltered people experiencing homelessness every other year (odd numbered years). Each count is planned, coordinated, and carried out locally.

**The Housing Inventory Count (HIC)** is a point-in-time inventory of provider programs within a Continuum of Care that provide beds and units dedicated to serve people experiencing homelessness (and, for permanent housing projects, where homeless at entry, per the HUD homeless definition), categorized by five Program Types: Emergency Shelter; Transitional Housing; Rapid Re-housing; Safe Haven; and Permanent Supportive Housing.

PIT and HIC happened on the night of January 25, 2023 in Vermont.

PIT submitted to HUD: April 25, 2023

HIC submitted to HUD: April 26, 2013
